

SUMMARY OF QUALIFICATIONS

Dynamic Web Development: Experienced in building interactive applications using Next.js, Tailwind CSS, Framer Motion, and Three.js.

Data & Analytics: Skilled at leveraging SQL, Power BI, and Excel for data-driven insights and strategic decision-making.

AI Integration: Proficient in AI-assisted coding (Cursor AI, ChatGPT) for efficient debugging and automation.

PROJECTS

Enhanced Expense Tracker (Python)

Developed a personal finance tracker with a GUI using Tkinter, visualizing spending trends through Matplotlib, and handling data storage with Pandas and CSV.

Interactive Portfolio Website

Explore my Next.js portfolio built with Tailwind CSS, Framer Motion, Three.js, and AI-assisted coding for a truly immersive, interactive showcase.

Furniture Layout Optimization (SLC)

Created a standardized manual using Microsoft Word and Canva, aiding staff orientation and optimizing space utilization at the SLC.
